

THE KAVLI FOUNDATION

WE ARE SEEKING SCIENCE PROGRAM OFFICERS

Do you have a strong desire to create a positive impact in the world through science?

Are you interested in harnessing the entirety of your talents -- beyond the bench -- to advance science?

If so, we'd like to hear from you. We're building a team of enthusiastic scientists who are excited to think big and catalyze new ideas for the future of science.

How do we push science forward? We work as a team to ensure the success of our global network of Kavli Institutes in Science. We work closely with scientists to understand gaps and opportunities to accelerate scientific progress. Our work has played a central role in the development of collaborative national movements in science, including The Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative and the National Microbiome Initiative.

Come join us. Dare to make big differences in science.

THE HISTORY OF NEUROSCIENCE IN AUTOBIOGRAPHY

THE LIVES AND DISCOVERIES OF EMINENT SENIOR NEUROSCIENTISTS CAPTURED IN AUTOBIOGRAPHICAL BOOKS AND VIDEOS

The History of Neuroscience in Autobiography Series

Edited by Larry R. Squire

Outstanding neuroscientists tell the stories of their scientific work in this fascinating series of autobiographical essays. Within their writings, they discuss major events that shaped their discoveries and their influences, as well as people who inspired them and helped shape their careers as neuroscientists.

Autobiographical Video (Available in DVD Format)

PBS personality Richard Thomas interviews eminent senior neuroscientists who reflect upon their lives, their dreams, and their work, and share their insights on what's ahead in the field of neuroscience.
